Linear algebra and analytic geometry of space success notes(Chinese Edition)

By CHENG GONG BI JI XI LIE CONG SHU) XIE WEI YUAN HUI

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Paperback. Publisher: Harbin Engineering major Pub. Date :2006-01-01. This book is in line with Ting-Zhu Huang. filial piety to the editor as a linear algebra and analytic geometry of space. a book written counseling book. Book chapters organized in the order according to materials. the focus of teaching materials. and difficult for a detailed summary and explanation. and the students left their own summary and summary of the space. designed to help students master the linear algebra and analytic geometry of space The basics. to the book reading book. reading through the objective. Contents: Chapter 1 elementary transformation matrix and its matrix and its operations 1.1 1.2 Gaussian elimination and matrix inverse elementary transformations 1.3 Chapter Summary 1.4 block matrix with the learning experience of the determinant of 2.1 n Chapter 2. the definition of determinant The nature and computing the determinant 2.2 2.3 2.4 Laplace theorem of Cramer rule to start the rank of the matrix 2.5 Chapter Summary Chapter 3. experience and learning geometry of space 3.1 Cartesian spatial vector multiplication and vector 3.2 3.3 3.4 spatial...
