Reviews

Thorough information! Its such a good study. Sure, it is perform, still an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Evie Emmerich)

MARIE DE MEDICIS (MIT PORTRAT.)

RareBooksClub. Paperback. Book Condition: New. Paperback. 28 pages. OCLC Number: 52262903 Excerpt: . . . describes patients with similar therapy, nursing, and special care needs and has a corresponding payment rate. The RUG classification system is hierarchical. The first distinction made is whether the patient has received (or is expected to receive) at least 45 minutes a week of therapy (see fig. 1). For these rehabilitation patients, further divisions - into ultra high, very high, high, medium, and low therapy categories - are made based on the total minutes and type of physical, occupational, and speech therapy provided over 7 days. Each of these categories is defined by a range of therapy minutes and the type of therapy provided. For example, patients in the very high category receive between 500 and 719 minutes of therapy over 7 days. Each category is further subdivided into RUGs, based on a patients dependency in performing ADLs, such as eating, transferring from a bed to a chair, or using the toilet. There are 14 rehabilitation RUGs, which account for three-fourths of Medicare-covered stays. Page 5 GAO-02-841 SNF Responses to Payment System This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
