An overly emotional NASA physicist, Tony Rydell, learns the frightening truth about Earths normally protective but rapidly thinning ozone layer during an hallucinatory, near fatal flight over Antarctica. But only Clare Holton, an emotionally repressed government scientific liaison officer, is willing to give Tony a hearing. However, Jack Douglas, Clares lover and a ruthless White House financial advisor, has the Presidents ear and is determined that nothing will undermine his plans to make the U. S. the worlds dominant economic power - even if it costs the environment in the process. So while the worlds governments sit back and do nothing, Tony and Clare, initially antagonistic but gradually drawn together, embark on a dangerous, magical quest: to save Earth from the Dream Maker - a mysterious force now growing stronger in the ever-widening hole in the ozone layer. . . a force that feeds off peoples minds and sends them into an alien world filled with UFOs and ghosts, monsters and resurrected loved ones. . . a world in which the line between dreaming and reality is being eroded. This in turn brings fire and flood, famine and disease. . . and America, the most powerful nation on Earth, is being forced back to its pre-industrial age and facing total breakdown. The race is on to prevent this. DREAM MAKER is a fascinating combination of love story, horror, science fiction and hard facts - a prediction of the world to come if we dont deal with todays terrifying environments problems. Another stunning novel by W. A. Harbinson, bestselling author of GENESIS and REVELATION. This item ships from...
