I have already alluded to the use of prolonged courses of lithia as being very beneficial, especially in cases with a gouty element and with defective action of the kidneys. In regard to the mode of its administration, I much prefer the effervescing granulated salts. I must also mention the benefit I have derived from the prolonged use of carefully-increased doses of Donovan s solution. It is to be remembered that these alteratives have, for the most part, been given while the patient was also taking iron in large doses, cod liver oil, syr. hypophos. comp., or some similar nutrient. I will merely mention again the nitrate of silver as an alterative, from which I think I have obtained good results,...
