

California Student Environmental & Food Justice Movements

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

LAP Lambert Academic Publishing Sep 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x10 mm. This item is printed on demand - Print on Demand Neuware - Many California public school students lack exposure to any formal, academic curriculum that emphasizes environmental awareness and activism. This may result in a population of adults who believe they know more about the environment than they actually do, lack the skills to compete in an expanding green job market, lack creativity and the ability to problem-solve, suffer from obesity, depression, anxiety, and attention disorders, and unknowingly contribute to the ever-increasing problems of air and water pollution, land and habitat destruction, and other environmental injustices. Community organizations and university programs are filling this much-needed gap in student environmental education, as they involve youth in understanding the principles of environmental activism, justice, and sustainability. But who are these students who are being informally educated to become tomorrow's environmental pioneers? It is these students who can provide a greater understanding of the motivations, life experiences, and community impact of environmental and food justice activists. 168 pp. Englisch.
